Programme outcomes

On completion of this level the learner can plan, execute and supervise the module outcomes below under normal workplace supervision, and produce the associated records to audit standard.

MODULES

Environmental Impact Assessments (EIA/ESIA) & EMP Auditing in Namibia

NTA reference: EMA 7 of 2007

MEFT process, scoping, EMP commitments and audit trails.

Namibian EIA practice under the Environmental Management Act: screening, scoping, ESIA authorship, EMP commitments and the audit trail MEFT expects when conditions are checked.

Practical video recording scheduled — the online reader reserves a demonstration slot for this module.

Process Safety Management (PSM), Major Hazard Installations & Green Hydrogen / Oil & Gas Safety

NTA reference: PSM

MHI regimes, PSM elements, hydrogen economy risk profiles.

Process safety at board level: MHI regimes, PSM element maturity, and the specific risk profiles of green hydrogen and oil & gas assets entering the Namibian economy.

Practical video recording scheduled — the online reader reserves a demonstration slot for this module.

Occupational Epidemiology, Industrial Toxicology & Biological Monitoring Governance

NTA reference: —

Cohort thinking, dose-response, biomonitoring ethics and governance.

Epidemiology and toxicology governance: cohort interpretation, dose-response reasoning and the ethics of biological monitoring programmes in the workplace.

Integrated SHEQ Systems (ISO 45001 + ISO 14001 + ISO 9001) Lead Auditing

NTA reference: ISO 19011

Integrated management systems and combined lead audit practice.

Integrated SHEQ systems collapse three standards into one audit: combined clause mapping, integrated documentation architecture and lead-audit practice across ISO 45001, 14001 and 9001.

Practical video recording scheduled — the online reader reserves a demonstration slot for this module.

Corporate Sustainability, GRI/ESG Disclosures & Climate Resilience Risk

NTA reference: —

Disclosure frameworks, ESG assurance, climate adaptation planning.

Sustainability disclosure is becoming assurance work: GRI structure, ESG metrics that survive scrutiny, and climate resilience risk woven into enterprise risk management.

Practical video recording scheduled — the online reader reserves a demonstration slot for this module.

Behavioural Safety Psychology, Human Factors Engineering & Fatigue Telemetry

NTA reference: —

Human factors, safety culture psychology, fatigue risk management systems.

Human factors close the gap between procedure and practice: safety psychology, human factors engineering in design, and fatigue telemetry feeding roster decisions.

Practical video recording scheduled — the online reader reserves a demonstration slot for this module.

Quantitative Cost-Benefit Risk Economics & Insurance Underwriting

NTA reference: —

Risk economics, ALARP arguments, underwriting interfaces.

Risk economics makes the case in money: cost-benefit analysis, ALARP arguments, insurance underwriting interfaces and the language that moves boards.

Practical video recording scheduled — the online reader reserves a demonstration slot for this module.

Level 7 Applied Industry Dissertation / Turnaround Strategy

NTA reference: —

Industry dissertation or a supervised organizational turnaround strategy.

The dissertation or turnaround strategy is the exit evidence: applied research or a supervised organizational transformation, defended before a panel of practitioners.

Practical video recording scheduled — the online reader reserves a demonstration slot for this module.
