TEMPLATE SYSTEM

How every Oryx document is built

One grid, one type scale, named styles, and a fixed skeleton for each document type.

Five rules

1. Use the named styles. Never format by hand.
2. Every document is cover, front matter, body, back matter, back cover.
3. Headings are numbered and every section starts a new page.
4. Full colour is the standard. Black-and-white is for modules and textbooks only.
5. Demo data is replaced before anything is printed.

Print rules

- Cover photographs need 300 dpi at A4. The demo photo is about 120 dpi.
- Add 3 mm bleed to covers, cards and the folder before sending to a printer.
- Black-and-white versions use black only, with light grey for tints.
- Name files with a number, a type and a version, e.g. 04_Student_Module_BW.
