ABOUT THIS REPORT

This report covers the year to 31 December 2026. All names and figures are demo data.

SECTION 1

Message from the Principal

Tools first, then the trade.

This was the year we stopped talking about what a polytechnic for Namibia could be and started building one. Every programme in this report began with a simple question: what does a young person need in their hands to be useful on the first day of work?

The answer has not changed. Learners need measurement, craft and judgement, and they need to practise them on real problems for real clients. That is why every course at Oryx ends in a venture rather than a final exam.

> *You are only as good as your tools. We forge them.*

Our thanks go to the partners who opened their workshops, the staff who gave up their weekends, and the first learners who trusted a new name.

Tangi Iigonda
PRINCIPAL

SECTION 2

The year at a glance

212
applications received

64
learners enrolled

9
industry partners

3
ventures launched

Enrolments by programme area

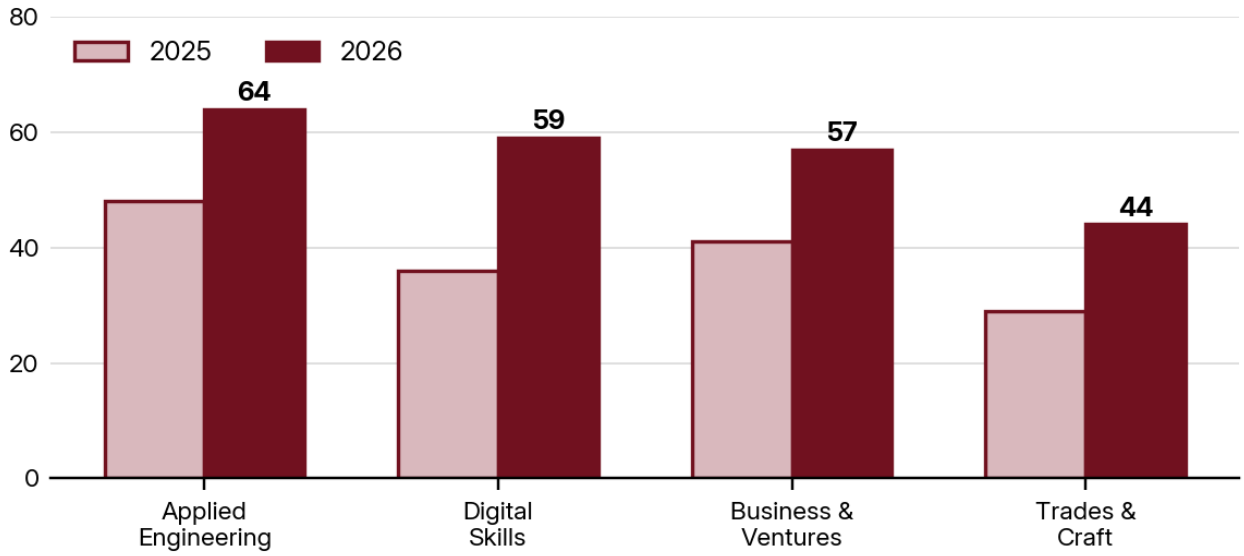

Figure 1. Enrolments by programme area, 2025 and 2026. Demo data.

Applied Engineering remained the largest area, while Digital Skills grew fastest as partners asked for learners who could record and report their own measurements.

SECTION 3

Programmes

Programme	Level	Learners	Partner projects
Applied Engineering	5	27	4
Digital Skills	4	17	2
Business and Ventures	5	13	2
Trades and Craft	3	7	1

Highlights

- First workshop cohort completed the measurement module.
- Two partner projects delivered to client briefs.
- The Oryx Directory published its fourth bulletin.

SECTION 4

Financial summary

Income	N$
Tuition and fees	1,420,000
Grants and partnerships	860,000
Venture revenue	310,000
Total income	**2,590,000**

Expenditure	N$
Teaching and workshops	1,150,000
Facilities	640,000
Equipment and materials	410,000
Administration	290,000
Total expenditure	**2,490,000**

Surplus carried forward: N$ 100,000

> **NOTE**
> Demo data. Replace with audited figures before this report is published.

SECTION 5

Governance and people

Name	Role	Since
Tangi ligonda	Principal	2026
[Name]	Registrar	2026
[Name]	Head of Applied Engineering	2026
[Name]	Board chair	2026

The board meets quarterly to review progress against the plan and approve the budget. Minutes are available on request.

SECTION 6

Outlook

What we will do in 2027.

- Open the second workshop and add evening classes.
- Complete accreditation applications with the NQA and NTA.
- Launch three further student ventures.
